DETAILED ITINERARY

Te Anau

GATEWAY TO FIORDLAND

Cradled by lake and mountains, Te Anau is the serene starting point for exploring Fiordland National Park. Cruise across Lake Te Anau, venture into glowworm caves, or begin the legendary Milford or Kepler Tracks. Peaceful yet full of possibility, it’s where big adventures begin in quiet surroundings.

Please note: Connecting 1.30pm Milford Sound Cruise - Haven

ABOUT

The journey to Milford Sound is as spectacular as the destination. Sit back and relax on our return coach from Te Anau, which takes you through stunning landscapes before you embark on a memorable cruise in the fiord.

Duration: 7 hours

What is included:

- Return coach transport from Te Anau
- Custom build coaches, with extra-large windows, glass roof, and angled seating for optimal viewing
- 2 hour Milford Sound cruise on one of our spacious and comfortable boats
- Onboard food and beverage available at an additional cost
- Insightful commentary by our friendly guides
- Amazing nature and wildlife viewing opportunity

What to bring:

- Non-slip shoes/boots
- Waterproof jacket
- Warm sweater/fleece jacket
- Sunscreen, hat and sunglasses
- Insect repellent
- Camera
- Personal medication, including for asthma and allergies

Drinks and snacks are available for purchase (please note we are cashless onboard)

Disclaimers:

- Visitors to Milford Sound should be aware of various natural hazards, including earthquakes, tsunamis, severe weather events, flooding, landslides, and avalanches.

Aotearoa New Zealand

- Powerful natural forces have shaped Aotearoa New Zealand over millions of years. Earthquakes and volcanoes lifted these beautiful islands out of the Pacific Ocean. They have created the dramatic landscapes we enjoy today.
- Natural hazards are part of life here. Around 20,000 earthquakes are recorded each year. Most are small and go unnoticed, but larger events can cause damage. Understanding the hazards and how to stay safe is an important part of planning your visit.

Piopiotahi Milford Sound

- Dramatic and ever-changing, Piopiotahi Milford Sound is one of the world's most spectacular and special environments. Its steep, glacier-carved mountains and deep fiord have been shaped by powerful geological forces over millions of years.
- The area is exposed to risk from a range of natural hazards. These can occur at any time, and some can happen without warning. Of all the hazards, large earthquakes, landslides and tsunamis pose the greatest risk to people at Piopiotahi Milford Sound.
- It is extremely unlikely that one will happen during your visit, especially for a short stay. However, there is a risk and the longer you spend there, the higher it becomes. Once you are there, your safety options are limited and it is important you understand the risks, before you go.

Earthquakes at Piopiotahi Milford Sound

- Like the rest of Aotearoa New Zealand, small earthquakes occur regularly in Fiordland. We don't feel them and they don't bother us. These small movements are a normal part of how the land works and do not pose a risk to people.
- Sometimes, earthquakes in or near Fiordland are felt at Piopiotahi Milford Sound. They might shake objects on a shelf or rattle a window, but they do not cause major impacts or disrupt your visit.
- Occasionally, a stronger earthquake can trigger avalanches, rockfall or landslides. These can cause debris to fall onto roads, jetties and tracks, and may disrupt your travel plans if you happen to be nearby.
- Large earthquakes are rare, and extremely unlikely to happen during a short visit. But they will happen again.
- The Alpine Fault runs almost the entire length of the South Island and crosses the entrance to Piopiotahi Milford Sound. It can generate earthquakes of magnitude 8 or greater, occurring on average every 300 years. There is a 75% chance of this happening in the next 50 years (find out more at af8.org.nz). An earthquake of this size would almost certainly affect the narrow waterway and surrounding area.

What to do in an earthquake:

- DROP, COVER and HOLD until shaking stops. Most injuries from earthquakes happen when you try and move during the shaking. The lower to the ground/floor you are, the less likely you are to be injured.
- Follow staff instructions and/or move up and away from waterways (the fiord and rivers) as quickly as possible.

Landslides at Piopiotahi Milford Sound

- steep mountains around Piopiotahi Milford Sound are prone to rockfall and landslides. Earthquakes and severe weather can make the cliffs unstable, sending rock and debris down at speed.
- Smaller rockfalls are common but often go unnoticed, unless you are nearby.
- Bigger landslides do not happen often. The chance of one occurring during a short visit is extremely unlikely. However, they could cause a tsunami in the fiord and do pose a risk to life at Piopiotahi Milford Sound.
- Large earthquakes are the most common trigger of big landslides in Fiordland. A large earthquake during your visit is extremely unlikely, especially for a short stay.

Be prepared for landslides

- Take extra supplies, food, water, first aid, clothes in your vehicle when travelling in remote areas, in case you get stuck – The road from Te Anau to Piopiotahi Milford Sound, is prone to avalanches, rockfall and landslides. It is monitored 24/7 by the Milford Road Alliance. However, if you get stuck, it will take time for help to reach you. Having extra supplies in your vehicle will make the wait time more comfortable.

- If you see or hear a landslide entering the water, dust clouds, loud rumbling, or splashing. Follow staff instructions and/or move up and away from waterways (the fiord and rivers) as quickly as possible.

Tsunami at Piopiotahi Milford Sound

- Like all of Aotearoa New Zealand's coastline, Piopiotahi Milford Sound is at risk of tsunami from multiple sources.
- The most common threat comes from distant earthquakes in the Pacific Ocean. These ocean-source tsunamis take hours to reach our shores. Official warnings are issued in time for people to move to safety.
- Less common, but of more concern, is the potential for a large landslide to fall into the fiord and trigger a tsunami.
- Landslide-triggered tsunamis are rare. The chance of one occurring during your visit is extremely unlikely. However, they can create large waves and do pose a risk to life at Piopiotahi Milford Sound.

Be prepared for tsunamis

- Triggered by an earthquake – If you feel a LONG (1 minute or more) or STRONG (cannot stand up) earthquake, while at Piopiotahi Milford Sound, Get GONE. Move up and away from waterways (the fiord and rivers) as quickly as possible.
- Triggered by a landslide – If you see or hear a landslide entering the water, dust clouds, loud rumbling, splashing or unusual water behavior, GET GONE. Move up and away from waterways (the fiord and rivers) as quickly as possible.

Plans and preparedness

- Piopiotahi Milford Sound has emergency response plans. These coordinate multiple agencies in a State of Emergency. The plans cover earthquakes, tsunami, landslides, avalanches, flooding, severe weather and other emergencies.
- All tourism operators maintain their own emergency procedures. These integrate with the wider response in a State of Emergency.
- If a large landslide triggers a tsunami, there will be no warning. Emergency support will take time to arrive. Visitors and workers should be aware of the risk to life and prepared to move up and away from waterways (the fiord and rivers) as quickly as possible.

Queenstown

WHERE NATURE TAKES CENTRE STAGE

Framed by the Southern Alps and resting beside Lake Wakatipu, Queenstown is a place of striking beauty and relaxed charm. Explore lakeside trails, cruise through alpine landscapes, or unwind with local wine and cuisine. It’s a destination that invites you to slow down—or explore at your own pace.

TOUR/ACTIVITY

Nevis Bungy, T-Shirt & Transport

PICKUP AT

08:50

PICKUP LOCATION

The Station Building, Queenstown

ACTIVITIES

Nevis Bungy, T-Shirt & Transport
(Booking ref. 2532426)

MR MOAMEN ELBADAWY

 **IMPORTANT**

Please check in at The Bungy Centre, Station Building, Cnr Camp & Shotover Streets by 8:50am for 9:20an departure.

Please note: Access to the Nevis site only by AJ Hackett 4WD transport (private road).

Includes: Free transport to and from Queenstown, The Nevis Bungy, Certificate, Video & Photo Package & a T-shirt.

Note: Minimum weight 45kg, maximum weight 127kg.

Amendment conditions: 24hrs plus notice date changes made no with no fee. 24hrs or less, \$50 administration fee applies.

Want an outdoor adventure, beautiful scenery and extreme highs? The Nevis Bungy (Bungee), 134m above the rugged Nevis River, combines all these elements into a mind-blowing series of unforgettable events. With 8.5 seconds of falling, its a breathtaking ground rush like no other. Even just getting there is fun. Your experience kicks off with a rugged 35 minute 4x4 drive through the backcountry. Once you arrive, you will be harnessed up, and board a six person shuttle that takes you out to the Bungy Pod. Here you will face your fear in one of the greatest personal challenges of your life.

Bungy Stats:

- New Zealand's Highest
- Jump from a highwire cable car 134m
- Massive Ground Rush - 8.5 seconds
- Private Mountain Access Road - 4WD ONLY

Age: Min 13 yrs (Children 15 and under need to be accompanied by an adult)

Weight: Min 45kg - Max 127kg

Clothing requirements: PLEASE dress warmly. Even on the warmest of winter days you should take a jacket and wear multiple layers (long sleeves and long pants are recommended) since the weather on site can be very different to that in town. Also, please wear secure, covered footwear. UGG boots are not ideal **for jumping so please do not wear these.**

Travel Time: Allow 4 hours round-trip.

Medical Considerations: Please inform our crew if you have any of the following conditions (please note it does not necessary prevent you from Bungy Jumping or Swinging): High blood Pressure, Heart Conditions, Epilepsy, Pregnancy, Fragile Skin, Neurological Disorders, Bone Disorders/Dislocations, Diabetes, Asthma, Prosthetics, Panic/Anxiety Attacks, Recent Sprains/Muscular Injuries.

 **IMPORTANT**

Please check in at The Bungy Centre, Station Building, Cnr Camp & Shotover Streets by 8:50am for 9:20an departure.

Please note: Access to the Nevis site only by AJ Hackett 4WD transport (private road).

ABOUT

One Bedroom Suite

Edgewater Resort is an idyllic lakeside resort offering fine comfort, style and superb views of lake and mountains. Its location is unique, with lawns rolling to the shoreline of Lake Wanaka and just a three minute drive from the town centre. All guest accommodation is situated to take advantage of lake and mountain views and provide easy access to the lake edge, yet retain privacy.

Edgewater lies right at the waters edge of Lake Wanaka. It is the perfect destination for guests to experience all that Central Otagos four seasons have to offer. Long, hot summers fade slowly into beautiful autumn colours, before the clear mountain air promises snow and crisp winter days. As the snowfalls melt, spring returns with its lush, bright greens.

At Edgewater we have genuine local knowledge that complements our enticing seasonal menus and inviting accommodation. Hotel rooms, one and two-bedroom apartment options mean there is an accommodation style to suit all guests. Apartments all have in-room washing/drying machines and kitchenettes. Premium rooms feature a balcony or patio with views of the lake and Southern Alps beyond. On site leisure facilities include Element Edgewater Day Spa, all-weather tennis court, spa, children's playground, putting green and sauna. Onsite mountain bikes are available for hire to explore Wanaka from the cycle trail that runs at the front of the hotel. Indulge in wine-tasting in the region, be exhilarated by the expansive wilderness of the Matukituki River, cruise on Lake Wanaka, ski the slopes of the three nearby ski resorts, Cardrona, Treble Cone, SnowfarmNZ or go heli-skiing (during winter months). Edgewater is a perfect base to explore all that Wanaka and Mt Aspiring National park have to offer. One bedroom suite king bed or 2 singles in separate private bedroom, open planned living and dining area with kitchenette facilities, foldout sofa, telephone, flat screen TVs with SKY, Free WIFI, CD player, ensuite bathroom with patio or balcony.

Cardrona

SNOW, SUN & SOHO

Heart of the South Island’s ski scene, Cardrona is a terrain-rich wonderland where expansive pistes, natural features, and a welcoming resort vibe meet. Home to the newly expanded Soho Basin—it now stands as the largest commercial ski area in the South Island. Beyond the snow, you’ll find mountain biking trails, après culture, and scenic views soaked in alpine sun. It’s bold, versatile, and perfectly balanced between adrenaline and ease.

TERMS AND CONDITIONS

ANZCRO AUSTRALIA TERMS AND CONDITIONS

These terms and conditions apply to ANZCRO Australia. Some items in your itinerary may also be subject to additional terms and conditions set by the supplier or operator (refer to the Supplier/Operator terms and conditions section).

1. AMENDMENTS

If you want to change or cancel any details of your itinerary booked through ANZCRO (such as changing to a different hotel or Product or changing your travel date), we will do our best to help but cannot guarantee that changes will be permitted by the relevant Supplier or that any refund will be provided. Requests for a refund of monies paid for any Products booked through ANZCRO will be governed by the terms and conditions of the relevant Supplier. You should familiarise yourself with the cancellation and refund policy of the applicable supplier prior to booking. ANZCRO cannot and will not provide any greater refund than it receives from the applicable Supplier (if any).

2. CANCELLATIONS

Cancellation requests must be in writing and comply with any form, timing or other requirements stipulated by ANZCRO and the relevant Supplier. The following cancellation charges will apply as a minimum. Any additional cancellation charges imposed by the applicable Supplier (including airline and ground operator charges) will also apply and be payable by you: Cancellation after confirmation of booking: Deposit is forfeited Cancellation between 30-15 days prior to the Product departure/ commencement date: Cancellation charge = 50% of the aggregate price of all cancelled Products Cancellation 14 days or less prior to the Product departure/ commencement date: Cancellation charge = 100% of the aggregate price of all cancelled Products.

3. REFUNDS

a. Suppliers are unable to authorise any refund on ANZCRO's behalf. Refunds (including for unused Products or Product vouchers) are subject to any applicable Supplier Product terms and conditions and/or ANZCRO's discretion. Different Products may be subject to different terms regarding refunds. Refunds may not be provided at all for some Products. b. All ski products are non-refundable. Ski conditions are an act of nature and totally beyond our control. ANZCRO urges clients to check weather conditions before departing on any ski or snow dependent holiday as conditions can change at very short notice. ANZCRO takes no responsibility for late starts or early finishes to the ski season. c. Prepaid hotel reservations are non-refundable and unable to be changed.

4. DOCUMENTS

All documents are emailed to the travel agent. It is your responsibility to check and ensure that the details set out on the documents (including your booking confirmation, itinerary and tickets) are accurate and complete. Names and titles must match exactly with names and titles as they appear in the passports of the relevant travellers.

5. PASSPORTS AND VISA REQUIREMENTS

It is your responsibility to ensure that all necessary travel documents, including passport and any required visa and vaccination certificates, are in order for all travellers and in their possession when travelling. For further information on visa requirements see (as appropriate): <https://www.immigration.govt.nz/new-zealand-visas/options/visit> <https://immi.homeaffairs.gov.au/visas/getting-a-visa/visa-finder/visit>

6. NEW ZEALAND TRAVELLER DECLARATION

The New Zealand Government has made updates to the New Zealand Traveller Declaration (NZTD). The NZTD is now fully implemented for all international arrivals and must be completed online or via the NZTD app. Travellers can submit their declaration up to 24 hours before travel or on arrival using airport kiosks. All other New Zealand entry, visa and NZeTA requirements remain unchanged. For more information, please visit <https://www.travellerdeclaration.govt.nz/>

7. NZETA - NEW ZEALAND IMMIGRATION VISA CHANGES

The New Zealand Government has introduced a new travel requirement for some visitors and transit passengers. It is called the NZeTA (New Zealand Electronic Travel Authority) and travellers need to request this via the official mobile app or website. Costs apply. For further details and to check if you are required to obtain an NZeTA refer to [immigration.govt.nz/nzeta](https://www.immigration.govt.nz/nzeta)

8. TRAVEL INSURANCE

ANZCRO strongly recommends you hold comprehensive travel insurance in respect of all Products. ANZCRO will have no liability whatsoever for any damage, liability, loss, cost, claim or expense suffered or incurred by you (or any other person) as a result of a failure to obtain or maintain adequate insurance cover. In particular, cancellation or amendment charges for Products will not be waived under any circumstances where travel insurance would have covered you.

9. BAGGAGE

All baggage and personal effect are, at all times, your own risk. Any excess charges are the responsibility of the passenger.

10. CAR PARKING

If you are planning to visit New Zealand or Australia and stay at one of the many hotels/motels/apartments on offer, depending on the location and category of the property, you may find different types of car parking services, such as valet parking, self-parking, or off-site parking. Car parking is NOT automatically requested or included when booking accommodation. Car parking needs to be requested at time of booking, and it will be on a request basis, subject to availability and paid directly to the property at time of check out.

SUPPLIER/OPERATOR TERMS AND CONDITIONS

Browns Boutique Hotel

Please note the Superior Guest Rooms are located on the top floor.

Edgewater Hotel

Winter 2026 special

Stay 4 nights and only pay for 3 nights

Valid for travel from 01 - 07 July 2026 and 01 - 21 September 2026

Valid on all room types

Bookings accepted anytime and is subject to availability

New Zealands new Covid-19 Protection Framework (a.k.a. the traffic light system) starts at 11.59pm on Thursday 2 December. Edgewater hotel will be a 100% vaccinated property from the beginning of the traffic light system.

This will mean that all guests - visitors to the Wineglass cafe, delegates and attendees at functions/weddings/conferences/events, and overnight guests will be required to be fully vaccinated. This policy also applies to staff and suppliers - anyone who visits the hotel in any capacity.

What does this mean for you?

For your clients aged 12 and over who are checking-in to stay from Thursday 2 December 2021, they will need to produce an official My Vaccine Pass.

If your clients have obtained their vaccination overseas there is a process to have this integrated with the New Zealand system, which may take up to 14 days. If you have clients in this situation and staying before their overseas pass is integrated, then please contact Trish May in advance.

If you have future bookings for un-vaccinated clients, upon your advice, we will cancel their booking with no penalty.

Distinction Luxmore Hotel

Please note if your room type says NONREF this means rates are non refunable, non changable. Once booked full cancellation fees apply

RealNZ - Te Anau

Please check in at the Realnz Te Anau Visitor Centre front counter 20 minutes before your departure time. What to bring • Non-slip shoes/boots • Waterproof jacket • Warm sweater/fleece jacket • Sunscreen/ sunglasses • Insect repellent • Camera/phone • Personal medication, including for asthma and allergies • If booking includes an Infant, guests must provide their own car seat Drinks and snacks are available for purchase (please note we are cashless onboard) Milford Sound Risk Disclosure Visitors to Milford Sound should be aware of various natural hazards when going to Milford Sound. Aotearoa New Zealand - Powerful natural forces have shaped Aotearoa New Zealand over millions of years. Earthquakes and volcanoes lifted these beautiful islands out of the Pacific Ocean. They have created the dramatic landscapes we enjoy today. - Natural hazards are part of life here. Around 20,000 earthquakes are recorded each year. Most are small and go unnoticed, but larger events can cause damage. Understanding the hazards and how to stay safe is an important part of planning your visit. Piopiotahi Milford Sound - Dramatic and ever-changing, Piopiotahi Milford Sound is one of the world’s most spectacular and special environments. Its steep, glacier-carved mountains and deep fiord have been shaped by powerful geological forces over millions of years. - The area is exposed to risk from a range of natural hazards. These can occur at any time, and some can happen without warning. Of all the hazards, large earthquakes, landslides and tsunamis pose the greatest risk to people at Piopiotahi Milford Sound. - It is extremely unlikely that one will happen during your visit, especially for a short stay. However, there is a risk and the longer you spend there, the higher it becomes. Once you are there, your safety options are limited and it is important you understand the risks, before you go. Earthquakes at Piopiotahi Milford Sound - Like the rest of Aotearoa New Zealand, small earthquakes occur regularly in Fiordland. We don’t feel them and they don’t bother us. These small movements are a normal part of how the land works and do not pose a risk to people. Sometimes, earthquakes in or near Fiordland are felt at Piopiotahi Milford Sound. They might shake objects on a shelf or rattle a window, but they do not cause major impacts or disrupt your visit. - Occasionally, a stronger earthquake can trigger avalanches, rockfall or landslides. These can cause debris to fall onto roads, jetties and tracks, and may disrupt your travel plans if you happen to be nearby. - Large earthquakes are rare, and extremely unlikely to happen during a short visit. But they will happen again. - The Alpine Fault runs almost the entire length of the South Island and crosses the entrance to Piopiotahi Milford Sound. It can generate earthquakes of magnitude 8 or greater, occurring on average every 300 years. There is a 75% chance of this happening in the next 50 years (find out more at af8.org.nz) . An earthquake of this size would almost certainly affect the narrow waterway and surrounding area. What to do in an earthquake: - DROP, COVER and HOLD until shaking stops. Most injuries from earthquakes happen when you try and move during the shaking. The lower to the ground/floor you are, the less likely you are to be injured. - Follow staff instructions and/or move up and away from waterways (the fiord and rivers) as quickly as possible. Landslides at Piopiotahi Milford Sound - steep mountains around Piopiotahi Milford Sound are prone to rockfall and landslides. Earthquakes and severe weather can make the cliffs unstable, sending rock and debris down at speed. - Smaller rockfalls are common but often go unnoticed, unless you are nearby. - Bigger landslides do not happen often. The chance of one occurring during a short visit is extremely

unlikely. However, they could cause a tsunami in the fiord and do pose a risk to life at Piopiotahi Milford Sound. - Large earthquakes are the most common trigger of big landslides in Fiordland. A large earthquake during your visit is extremely unlikely, especially for a short stay. Be prepared for landslides - Take extra supplies, food, water, first aid, clothes in your vehicle when travelling in remote areas, in case you get stuck – The road from Te Anau to Piopiotahi Milford Sound, is prone to avalanches, rockfall and landslides. It is monitored 24/7 by the Milford Road Alliance. However, if you get stuck, it will take time for help to reach you. Having extra supplies in your vehicle will make the wait time more comfortable. - If you see or hear a landslide entering the water, dust clouds, loud rumbling, or splashing. Follow staff instructions and/or move up and away from waterways (the fiord and rivers) as quickly as possible. Tsunami at Piopiotahi Milford Sound - Like all of Aotearoa New Zealand’s coastline, Piopiotahi Milford Sound is at risk of tsunami from multiple sources. - The most common threat comes from distant earthquakes in the Pacific Ocean. These ocean-source tsunamis take hours to reach our shores. Official warnings are issued in time for people to move to safety. - Less common, but of more concern, is the potential for a large landslide to fall into the fiord and trigger a tsunami. - Landslide-triggered tsunamis are rare. The chance of one occurring during your visit is extremely unlikely. However, they can create large waves and do pose a risk to life at Piopiotahi Milford Sound. Be prepared for tsunamis - Triggered by an earthquake – If you feel a LONG (1 minute or more) or STRONG (cannot stand up) earthquake, while at Piopiotahi Milford Sound, Get GONE. Move up and away from waterways (the fiord and rivers) as quickly as possible. - Triggered by a landslide – If you see or hear a landslide entering the water, dust clouds, loud rumbling, splashing or unusual water behavior, GET GONE. Move up and away from waterways (the fiord and rivers) as quickly as possible. Plans and preparedness - Piopiotahi Milford Sound has emergency response plans. These coordinate multiple agencies in a State or Emergency. The plans cover earthquakes, tsunami, landslides, avalanches, flooding, severe weather and other emergencies. - All tourism operators maintain their own emergency procedures. These integrate with the wider response in a State of Emergency. - If a large landslide triggers a tsunami, there will be no warning. Emergency support will take time to arrive. Visitors and workers should be aware of the risk to life and prepared to move up and away from waterways (the fiord and rivers) as quickly as possible. For more detailed information, please visit Emergency Management Southland or AF8 .

Skyline Queenstown

Skyline Gondola can be wheel chair accessible if the clients are semi mobile and are able to be lifted from wheel chair to the gondola. If clients are unable to be moved from chair then this is not a suitable option. the gondolas can not accomodate electric wheel chairs. Pre-schoolers under 2 years of age and anyone less than 80cm tall are not permitted to ride the Chairlift or Luge. Pre-schoolers older than 2 years of age, taller than 80cm, and no taller than 120cm can ride the Luge in tandem with an adult aged 15+ years at a cost of NZ\$5 for unlimited rides (to be paid direct and subject to change without notice)

AJ Hackett Bungy Queenstown

MBIE (Ministry of Business, Innovation and Employment) are proposing to make changes to how risk is monitored, assessed and communicated. To conform to these proposed changes, we need to communicate ‘risk information’ to all customers before they partake in their experiences with us. We will do this through our ‘booking confirmation email’. For this to happen we require the customers email address at time of booking.
